Welcome to the 15th Annual “Pick of the Pen” Bull Sale

On behalf of everyone at McDonald Farms I would again like to welcome you to our 15th Annual “Pick of the Pen” Bull Sale. We have a quality offering of bulls bred and raised to work in Real World Conditions. Take a moment to study the information on these stout, rugged bulls that are offered. They have been performance tested, DNA tested, tested BVD-PI negative, breeding soundness examined and semen tested and evaluated for calm dispositions. Several bulls are outcross pedigreed and can provide a fresh impact on genetics.

Again we are providing Free Delivery up to 150 miles, prorated after that, we will keep the bulls free of charge until May 15th and offer volume and pick-up discounts and allowing neighbors to go together to take advantage of these discounts. We have adjusted our “opening bid prices” down to the modest levels of \$2000 - Good, \$2750 -Better and \$3500 - Best.

On behalf of my family we would like to thank everyone who has made this bull sale possible. We couldn't do it with out you!

Feel free to contact me, 540-230-6225, my Mother Martha 540-552-2520 or William “Woody” Saville at 540-239-2257 with any questions you may have.

The bulls will be on display at 10, a complimentary beef lunch with bluegrass music at 12 and the sale starting at 1pm eastern. Come and enjoy our “Down Home Hospitality”.

See You April 7th,

Bill McDonald

Whether you are a seedstock or commercial producer, ASA has a THE option that will fit your objectives and budget. ASA's THE dam inventory program has three different enrollment options available, making it easier than ever to find the best fit for your herd. By choosing one of the THE options, you will become part of the world's largest multi-breed genetic evaluation and database.

Allied Genetic Resources (Allied) was created to help you market your cattle more effectively, and thus have the greatest opportunity to achieve the goals for your operation. You are producing the right product, in the right way and you should be rewarded for that with more profits and more opportunities. We are excited about the opportunity to leverage the strength, size and scope of this group to provide improved marketing outlets for your cattle.

The entire herd is on a complete vaccination program for 7-way clostridium, IBR-BVD-BRSV-PI3, Hamophilus Somnuns, Pasturella, Leptospirosis and Vibriosis. All females are calftood vaccinated for brucellosis. All animals are treated twice annually with dewormer pour-on. Every bull has passed a breeding soundness exam and semen test. All bulls tested BVD PI free. All Bulls are AM & NH free by pedigree or DNA test.

All Simmental and SimAngus bulls are homozygous black. Several years ago we tested all our cows and have tested all subsequent offspring until we have only homozygous black females and use only homozygous black sires.

Semen Interest:

McDonald Farms will retain 1/2 interest in the semen rights including revenue sharing on all bulls. This in actuality will effect very few bulls. If need be, we will collect bulls at our expense and the buyers convenience. The Buyer has 100% possession and 100% salvage value.

Liability:

Owners, their agents, or anyone associated with the conduction of this sale will not be held responsible for any personal injury, loss, or accident while traveling to or from or while attending this sale.

Insurance:

SALE INFORMATION

"PICK OF THE PEN" Sale Procedure

All cattle will be uniformly grouped in pens of approximately 4-8 head per pen. The sale cattle will remain in the pens throughout the sale or until ready for loading out. The auction will be conducted inside the shop, but there is no sale ring and no cattle will be brought inside. Each pen will be assigned a very conservative opening bid. We will auction the cattle one pen at a time. In order to start the bidding on a pen, someone must offer the opening bid price and then we auction to the highest bidder, who then has the option of selecting which or however many they desire from that pen at the winning bid price. We continue this procedure until the pen is empty or no one wants the opening bid. If any animals remain unsold in a pen, then we "Pass the Pen" and any remaining animals are available at the "opening bid price" at the settlement table on a first come first serve basis. Any remaining animals will be priced based on quality. None will be priced below their opening bid price.

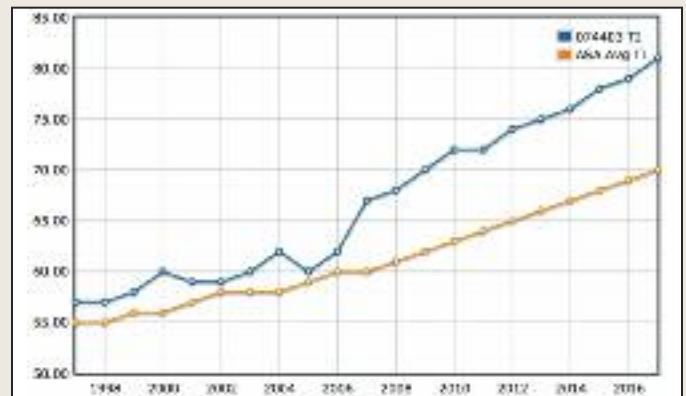

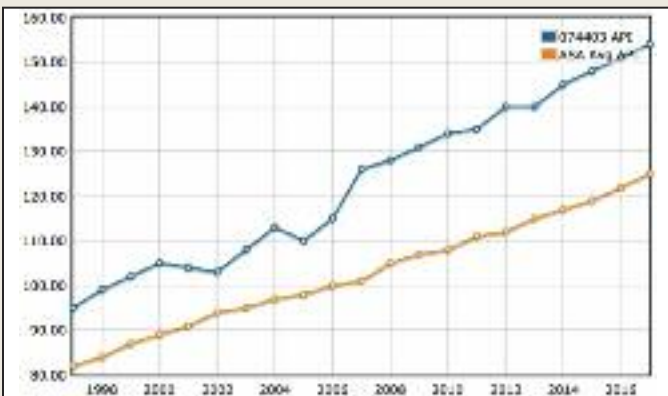

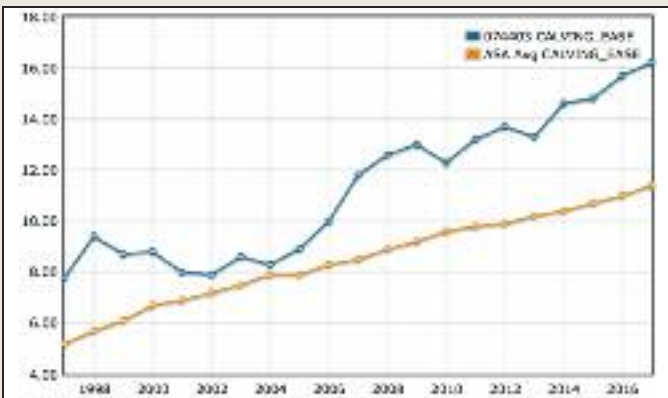

McDonald Farms Bull Management

We believe that the natural resource of forages in this area is our greatest asset when it comes to livestock production. We strive to produce cattle that can utilize this resource to optimal levels. We also know that our end product must meet or exceed the expectations of all our customers, from the commercial cattle producer, the feedlot operators, the packers and our ultimate customer the consumer.

We have selected these cattle for calving ease, growth performance, milking ability, carcass quality, and calm disposition. They have been performance tested on forage rations in big pastures. We want to produce Decathlons and not a Sumo wrestler.

They have been tested to be BVD-PI free, AMF/NHF/CAF, and ultrasounded. They have passed Breeding Soundness Exams and Semen tests. They are stout strong Bulls ready to go to work.

ALLIED

GENETIC RESOURCES

GET IT ALL. Calving Ease, breed leading growth, with proven maternal strength and the best, value added carcass traits in the beef business.

The impact of new sires is far longer than we usually consider. If they are still breeding cows in five seasons, the last calves will come in 2023. That means you should

still have plenty of daughters into the mid 2030s! With that long term impact on your cow herd and industry changes that mean more dollars for genetically better calves, can anyone really afford to take chances?

Use IGS EPDs to guarantee value! They are third party verified and backed by data from millions of individuals and the best in DNA genomic technology in the business. You wouldn't buy any other ranch input without solid proof of value. Genetics might be your most important investment. Buy where you see the Allied logo and get the profit based genetics that you deserve.
